**FOR IMMEDIATE RELEASE**

### **ATTO announces support for Apple® Release of the new iMac Pro**

**ATTO's line of Thunderbolt™ technology enabled products continue to revolutionize connectivity to storage**

Amherst, NY (December 14, 2017) – ATTO Technology, Inc., a global leader of storage and network connectivity and infrastructure solutions for data-intensive computing environments, today confirmed their continued commitment to the newly released line of product updates and innovations from Apple. With the powerful and new iMac Pro® now shipping, ATTO continues to support the new offerings from this industry leading manufacturer. "Our deep relationship with Apple over the last 30 years continues to drive our position as a leading force within the Apple community," said Timothy J. Klein, president and CEO at ATTO Technology.

The iMac Pro sets a new standard for Apple design and performance and complements why users select ATTO products. As Apple pushes the boundaries of desktop computing, ATTO continues to provide industry leading products that optimize compatibility and performance. The new iMac Pro is a powerful collection of workstation-class graphics, processors, storage, memory, and I/O while maintaining its slim all-in-one design.

Apple's highly anticipated release of the iMac Pro has sparked the imagination of the high-end creative professional. ATTO is the recognized leader in powering high-performance audio and video workflows including 2K, 4K, 8K and 3D stereoscopic and high-definition production. With an unprecedented four Thunderbolt™ 3 ports, connectivity to the iMac Pro for high-performance network and storage infrastructures is enabled via the industry leading ATTO ThunderLink® adapters.

ATTO is a pioneer in Thunderbolt™ enabled solutions and first to market with compatible macOS drivers for their HBAs, NICs and [ThunderLink®](#) adapters. ATTO has worked closely with Apple to provide proven Thunderbolt™ connectivity to high-performance Fibre Channel and SAS/SATA storage, as well as 40&10Gb/s Ethernet networks, connecting to storage from

virtually anywhere, through any protocol, with the diverse line of ATTO Thunderbolt™ technology enabled products.

"As an innovator in Thunderbolt™ technology and leader in the Apple market, ATTO is well prepared for the release of the new Apple iMac Pro," said Timothy J. Klein. "Apple has reaffirmed their commitment to the high-performance professional market by supporting the next generation of Thunderbolt technology, and we are excited to continue our long standing relationship with Apple by providing products that offer creative users premium performance and maximum usability from this powerful new platform."

## **ABOUT ATTO**

For 30 years, ATTO Technology, Inc., has been a global leader across the IT and media and entertainment markets, specializing in storage and network connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works collaboratively with partners to deliver a wide range of end-to-end, customized solutions to better store, manage and deliver big data. With a focus toward markets that require higher performance and with a dedication to working as an extension of customer's design teams, ATTO manufacturers host and RAID adapters, network adapters, storage controllers, Thunderbolt™ enabled adapters and software. ATTO solutions provide a high level of connectivity to all storage interfaces, including Fibre Channel, SAS, SATA, iSCSI, 40/10GbE, NVMe and Thunderbolt. Distributing its cutting-edge products worldwide through Original Equipment Manufacturers (OEMs), systems integrators, value added resellers (VARs) and authorized resellers, ATTO is the Power Behind the Storage.
