FOR IMMEDIATE RELEASE

ATTO Technology Features Multiple Dell and ATTO Solutions on Dell Technologies World 2020 Event Page

Includes Solutions for Ethernet and tape storage plus ATTO 360 Tuning Software with performance-enhancing Dell EMC storage profiles

Amherst, NY (October 12, 2020) – ATTO Technology, Inc., a global leader of storage, network connectivity and infrastructure solutions for data-intensive computing environments for over 30 years, will showcase industry-leading, certified connectivity for Dell storage, workstation, and tape archive products on their Dell Technologies World 2020 event page October 21-22, 2020.

ATTO and Dell have partnered to create solutions for the entire IT landscape. Among multiple solutions certified by Dell and featured on the event page is the industry's only commercially available solution to add high-speed Ethernet connectivity to standard SAS LTO tape drives consisting of ATTO XstreamCORE® ET 8200 intelligent storage bridges and Dell EMC PowerVault™ ML3 scalable tape libraries.

ATTO XstreamCORE ET 8200 intelligent bridges allow SAS/SATA storage like PowerVault ML3 libraries to connect over Ethernet using iSCSI. Utilizing existing networks, up to 16 LTO tape drives can be connected to a single ATTO XstreamCORE allowing scaling of backup environments in ways previously unavailable to IT architects.

ATTO 360™ Tuning, Monitoring and Analytics Software now includes seven custom tuning and optimization profiles for Dell Isilon™ and PowerScale™ nodes running Dell Technologies OneFS™ file system. ATTO 360 Tuning Software is designed to easily optimize and maintain Ethernet networks.

When used in conjunction with ATTO FastFrame™ 3 and ThunderLink® Ethernet adapters, Dell customers get previously unheard of performance numbers and troubleshooting capabilities with ATTO 360. Testing has shown that ATTO FastFrame NICs running ATTO 360 can improve performance of Dell Isilon and PowerScale nodes up to 30%.

For further details on ATTO 360 with Dell OneFS, please see the solution guide at www.atto.com/solutions/dell/360

Dell has also certified ATTO ThunderLink Thunderbolt™ adapters, ATTO Celerity™ Fibre Channel HBAs and ATTO ExpressSAS® HBAs for Dell Precision™ workstations. Further details available from Dell.

ABOUT ATTO

For over 30 years ATTO Technology, Inc. has been a global leader across the IT and media & entertainment markets, specializing in network and storage connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works with customers and partners to deliver end-to-end solutions to better store, manage and deliver data, often as an extension of their design teams. ATTO manufactures host and network adapters, storage appliances and controllers, intelligent bridges, Thunderbolt™ adapters, and software. ATTO solutions provide a high level of connectivity to all storage interfaces, including Fibre Channel, SAS, SATA, iSCSI, Ethernet, NVMe and Thunderbolt. ATTO is the Power Behind the Storage.
