FOR IMMEDIATE RELEASE:

ATTO Technology Goes to VMworld 2019 with a Wide Range of Certified High-Performance VMware Connectivity Solutions

Amherst, NY (July 22, 2019) – [ATTO Technology, Inc.](http://atto.com), a global leader of storage, network connectivity and infrastructure solutions for data-intensive computing environments for over 30 years, will showcase the industry's widest range of certified VMware® connectivity solutions at VMworld in San Francisco, August 25-29, booth #666.

ATTO's comprehensive VMware Ready™ product line includes VMware certified network and storage connectivity for shared Fibre Channel storage, direct connect SAS/SATA storage, and high performance network connectivity.

These solutions include: [ATTO Celerity™ Fibre Channel \(FC\) HBAs](#) which have over 137% more throughput than our nearest competitor and [ATTO FastFrame™ 100/50/40/25/10GbE NICs](#) with their industry-leading performance-to-power ratio.

ATTO will have the VMware Ready certified [ATTO XstreamCORE™ FC 7550](#) on display. ATTO XstreamCORE decouples blade servers from direct-attached storage, allows SAN connectivity and cluster creation, enhancing the features and performance of any VMware environment by reducing migration times up to 90% and accelerating Flash-based storage by up to 20x.

We'll have experts at the show to discuss Mac virtualization using [ATTO ThunderLink® Thunderbolt™ adapters](#). Virtualize Mac Pro® hosts with ESXi™ using ThunderLink and ATTO VMware Ready HCL approved ESXi drivers and connectivity to Fibre Channel or SAS/SATA storage.

Watch for updates from ATTO at VMworld on Twitter, Facebook and Instagram via [@ATTOTechnology](#), and be sure to [visit ATTO.com](#) for detailed information on our VMware certified products.

VMworld is about the technology, trends and people who are shaping the future of software-defined infrastructures. ATTO booth #666 should be the first stop for those looking for high-performance, flexible and highly reliable VMware connectivity solutions.

ABOUT ATTO

For over 30 years ATTO Technology, Inc. has been a global leader across the IT and media & entertainment markets, specializing in storage and network connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works with partners to deliver end-to-end solutions to better store, manage and deliver data. Working as an extension of customers' design teams, ATTO manufactures host and RAID adapters, network adapters, storage controllers, Thunderbolt™ adapters, and software. ATTO solutions provide a high level of connectivity to all storage interfaces, including Fibre Channel, SAS, SATA, iSCSI, Ethernet, NVMe and Thunderbolt. ATTO is the Power Behind the Storage.
