

## ThunderLink® NT 2102

ATTO THUNDERLINK® OUTPERFORMS BOTH AKITIO THUNDER2 10G AND PROMISE SANLINK2 10GBASE-T

### HOST:

- Apple® Mac Pro

### STORAGE SYSTEM:

- Facilis Terrablock (10Gb Ethernet)
- Facilis Shared FS v6.6.0

### DEVICES UNDER TEST:

- ATTO Technology  
ThunderLink NT 2102 10GBASE-T
- AKiTiO Thunder2 10GBASE-T
- Promise SanLink2 10GBASE-T

### FILE SIZE:

- 4GB

### ABOUT ATTO TECHNOLOGY, INC.

For 30 years, ATTO Technology, Inc. has been a global leader across the IT and media & entertainment markets, specializing in storage and network connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works with partners to deliver end-to-end solutions to better store, manage and deliver data. Working as an extension of customer's design teams, ATTO manufactures host and RAID adapters, network adapters, storage controllers, Thunderbolt™ adapters, and software. ATTO solutions provide a high level of connectivity to all storage interfaces, including Fibre Channel, SAS/SATA, iSCSI, Ethernet, NVMe, NVMe over Fabrics and Thunderbolt. ATTO is the Power Behind the Storage.

All trademarks, trade names, service marks and logos referenced herein belong to their respective companies.

There's little time to waste when it comes to completing projects on time. Predictable low-latency data transfers with the highest bandwidth are a requirement for media and entertainment workflows. This benchmark involved three 10GBASE-T connectivity Thunderbolt™ adapters, including ATTO Technology, ThunderLink® NT 2102, Promise SanLink2 and AKiTiO Thunder2 10G.

### RESULTS

The ATTO ThunderLink outperformed both the Promise SanLink2 and the AKiTiO Thunder2 in this benchmark, with performance up to 20% better than the competition. This means users can transfer several additional terabytes of data in a given day. With the ATTO proprietary Advanced Data Streaming (ADS™) latency management technology to ensure smooth transfer of data while eliminating dropped frames, and ATTO's expertise in macOS® driver development, the ThunderLink NT 2102 is able to provide optimized Thunderbolt connectivity for high intensive IO environments with the lowest possible latency. In addition, ATTO has a history of extensive interoperability, optimization tools and onsite customer support paired with a three year warranty. Whether working in high-resolution video flows or preparing for data intensive transfers, ATTO ThunderLink NT 2102 outperforms the competition.
