

The Power Behind the Storage

Edit 4K/8K/HDR using 32Gb Celerity™ Fibre Channel

Create storage area networks using the latest Gen 6 Fibre Channel connectivity

Demo Description:

ATTO Celerity™ host bus adapters support the latest Gen 6 Fibre Channel technology, ensuring the lowest latency and highest throughput available to meet the real-time streaming demands of 4K and 8K applications.

Solution Benefits:

- ATTO MultiPath Director™ enables servers and workstations to connect to enterprise-class storage, providing a completely redundant, high-availability, high performance storage solution.
- ATTO provides the only solution that allows Windows®, Linux® and Mac® workstations to work together in a heterogeneous SAN.
- Move large volumes of data with fast, predictable and deterministic response times by optimizing performance up to 3200MB/s per channel.
- Built into every Celerity HBA, ATTO Advanced Data Streaming (ADS™) Technology manages latency by providing controlled acceleration for smooth data streaming, maintaining the highest consistent performance in data intensive environments.
