

ATTO

EMC Business Partner Program for Technology Connect Partners

SELECT PARTNER

Partner Products

- Celerity 16 Gb and 8 Gb Fibre Channel host bus adapters
- FastFrame 10GbE Network Interface Cards
- Thunderlink™ Desklink devices
- Xtend SAN iSCSI Initiator

EMC/EMC Products

- VNX/VNXe
- EMC® VMAX
- EMC® Isilon

Solution Highlights

- *Media & Entertainment*
MultiPath Director™ provides a redundant, high-performance storage solution for content-creation workstation applications
- *Oil and Gas exploration*
Connect Mac and Windows hosts directly to EMC storage to access enterprise-class features
- *Video Surveillance*
ATTO ADS technology ensures full video data availability with no dropped frames
- *Thunderbolt Solutions*
ATTO Thunderlink devices connect mobile platforms to enterprise-class EMC® Isilon storage in M&E, scientific imaging and data analytics environments.

EMC² Technology Connect
BUSINESS PARTNER SELECT

COMPANY OVERVIEW

ATTO Technology, Inc. is a global leader of storage connectivity and infrastructure solutions for data-intensive computing environments ranging from workgroup up to enterprise. In collaboration with EMC, we provide high-availability Mac OS X and Windows 8/7 workstation connectivity to EMC VNX and VMAX family of products. For EMC Isilon products, we provide Mac OS X and Windows 8/7/2008/2012 host connectivity to create completely redundant, high-performance storage solutions.

PARTNER PRODUCT INFORMATION

CELERITY FIBRE CHANNEL HOST BUS ADAPTERS

Celerity 16 Gb and 8 Gb quad-, dual- and single-channel Fibre Channel host bus adapters leverage ATTO's 15-plus years of Fibre Channel experience and exclusive MultiPath Director™ technology to provide high performance, low-latency data transfers and high-availability access to EMC storage for Mac and Windows hosts.

Media & Entertainment

- Addresses workflow requirements including capture, edit, content management and distribution with fast, efficient and reliable data transfers
- Proprietary MultiPath Director™ technology provides a completely redundant, high performance storage solution for workstation applications in digital video, audio and content-creation environments
- Real-time and simultaneous access to data enables workgroups or single users to efficiently complete projects and meet deadlines

OIL AND GAS EXPLORATION

- Connect Mac and Windows hosts directly to EMC storage to accelerate applications and access the enterprise-class features of EMC products
- Boost performance by load balancing across multiple Fibre Channel paths
- Eliminate downtime by utilizing automatic failback and failover on multiple, redundant connections to storage

Video Surveillance

- Proprietary Advanced Data Streaming (ADS) technology ensures low latency data transfers with guaranteed camera writes, ensuring video data availability without dropped frames for later analysis and review
- Easy configuration, management and troubleshooting of multiple paths to storage via ATTO Configuration Tool

REDEFINE

SOLUTION OVERVIEW

EMC²

FASTFRAME 10GBE NETWORK INTERFACE CARDS

Available in quad-, dual-, and single-channel SFP+ configurations with support for direct-attach copper and RJ45 copper. FastFrame NICs lead in high-performance I/O connectivity for Mac OS X and Windows hosts to EMC Isilon storage

Media & Entertainment / Big Data Analytics

- Directly attach Mac OS X and Windows 8/7 workstation hosts to an iSCSI SAN, or Mac OS X and Windows 8/7/2008/2012 hosts to an Ethernet SAN for improved availability and management
- Lower power consumption by up to 30% for reduced data center OPEX

THUNDERLINK™ DESKLINK DEVICES

Leverage Thunderbolt technology to connect mobile platforms to enterprise class storage and high-performance networks

- Thunderbolt-to-10GbE connectivity for workbooks and all-in-ones
- Addresses the demands of rapidly evolving work environments by allowing access to enterprise-level data center networks

XTEND SAN ISCSI INITIATOR FOR MAC OSX

Software that provides Mac users with network access to block-level storage without the cost and complexity of a Fibre Channel SAN.

- Allows small businesses and workgroups to reap the advantages of a SAN on a manageable budget
- Leverages Ethernet expertise to run a storage area network over existing Ethernet infrastructure
- Easy to use GUI simplifies setup, configuration and management
- EMC® E-Lab Certified

ABOUT ATTO TECHNOLOGY

ATTO Technology, Inc. is a global leader of storage connectivity and infrastructure solutions for data-intensive computing environments. ATTO provides a wide range of solutions to help customers store, manage and deliver their data more efficiently. ATTO has been providing high-performance data and storage networking products for 25 years.

ABOUT EMC

EMC Corporation is the world's leading developer and provider of information infrastructure technology and solutions that enable organizations of all sizes to transform the way they compete and create value from their information. Information about EMC's products and services can be found at www.EMC.com.

CONTACT US

To learn more about how EMC products, services, and solutions can help solve your business and IT challenges, [contact](#) your local representative or authorized reseller, visit www.emc.com, or explore and compare products in the [EMC Store](#).
