ATTO

ATTO Technology, Inc.

ATTO Product Lines

For over 20 years, ATTO has been a leader in providing high-performance storage connectivity for data-intensive computing environments. With a portfolio of products based on the latest storage technologies, we combine superior performance and ease-of-use with the best support in the industry to deliver the Power Behind the Storage.

Host and RAID Adapters

ATTO Host and RAID adapters are engineered with the latest storage technologies to deliver industry-leading performance. With distinctive latency-management features such as Advanced Data Streaming (ADS™) Technology, Celerity 8Gb/s and 4Gb/s Fibre Channel HBAs, ExpressSAS 6Gb/s and 3Gb/s SAS/SATA HBAs and RAID Adapters and ExpressPCI SCSI HBAs, provide faster and more efficient data transfers..

Network Adapters

The FastFrame™ line of 10GbE Network Adapters provides flexible and scalable unified LAN and SAN storage connectivity. FastFrame adapters increase system performance by delivering up to 10Gb/s throughput per port while balancing networks loads and reducing latency.

RAID Storage Controllers

The ATTO FastStream™ SC family addresses customer needs for high performance, stand-alone RAID controllers that can be seamlessly integrated into a storage environment to provide data protection and high-speed access to JBOD storage.

Bridges

With exclusive *i*ntelligent Bridging Architecture™ ATTO bridge products allow you to use existing SCSI technology as the industry changes. ATTO offers the widest selection of bridge products in the industry allowing you to match a product to your performance needs.

Switches

FibreConnect™ 8Gb/s Fibre Channel switches provide high-performance, scalable connectivity with enterprise-level features for small to mid-range SANs. With FibreConnect switches and ATTO's 8Gb/s Fibre Channel HBAs, businesses can create a high-availability SAN with collaborative workflows that allow multiple users to access shared data.

Software, Cables, Tools

ATTO creates software, cables and downloadable tools which help to maximize the productivity, and efficiency of our other products. These products combined with ATTO's other product lines will ensure maximum quality in your work environment.
