

Accelerating Productivity for Professional 4K/8K Post-Production & Finishing Workflows

HIGH-PERFORMANCE SOLUTIONS TO CREATE WITHOUT COMPROMISE

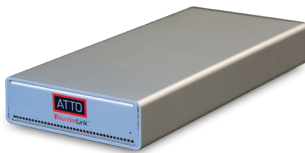

LENOVO™ THINKPAD®

LENOVO™ THINKSTATION®

ATTO THUNDERLINK® THUNDERBOLT™ 3 ADAPTERS

ATTO CELERITY™ 32GB, 16GB FIBRE CHANNEL HBAS

Lenovo™ ThinkStation® P920, P720, P520; and ThinkPad® P71, P52s and P51 when combined with ATTO Technology storage and network connectivity can power a wide range of professional solutions, including: Adobe® Premiere Pro® CC, Avid® Media Composer®, Autodesk® Flame® or Blackmagic Design DaVinci Resolve.

With the ability to handle a variety of file formats, media ingest and asset offload to storage or network pooled storage, Lenovo Workstations and ATTO provide a reliable, high-performance and capable solution so you can focus on what is most important, your art.

Lenovo ThinkStation and ThinkPad solutions provide flexibility when choosing the right workstation for your production:

- Engineered in collaboration with media & entertainment artists
- Reliability and performance are delivered through the latest Intel CPU and NVIDIA® GPU offerings along with a unique tool less design for component configuration flexibility
- ThinkStation offers advanced diagnostics, to minimize down-time if issues should arise in addition to Lenovo Performance Tuner that includes predefined application profiles to increase operating performance

ATTO products offer artists industry leading solutions for connectivity:

- Extensively tested across the Lenovo Workstation portfolio of tower and mobile products
- Comprehensive portfolio including: FastFrame™ Ethernet, Celerity™ Fibre Channel and ExpressSAS® SAS/SATA RAID host adapters as well as XstreamCORE™ storage controller offerings and ThunderLink® Thunderbolt adapters for desktop and mobile workstations
- Solutions feature ATTO Advanced Data Streaming (ADS™) Technology to help manage latency in high-bandwidth work environments, while offering the smoothest possible data transfers to mitigate the possibility of stuttered or dropped frames

The combination of Lenovo Workstations and ATTO Technology offerings provide the perfect foundation for high performance editing and finishing solutions required for today's demanding projects.
