- TLNQ 3402 – Thunderbolt 3 to Dual Port 40Gb Ethernet
- TLNQ 3401 – Thunderbolt 3 to Single Port 40Gb Ethernet
- TLNS 3102 – Thunderbolt 3 to Dual Port 10Gb Ethernet
- TLNS 3101 – Thunderbolt 3 to Single Port 10Gb Ethernet

### SUPPORTED OPERATING SYSTEMS

- Windows® 10, 7

ATTO Technology, Inc. has been developing high performance, low latency storage and network connectivity solutions for the workstation market for 30 years. ATTO Thunderbolt 3 to 40GbE and 10GbE ThunderLink adapters were designed to meet the ever growing performance needs of creative professionals when connected to networked storage.

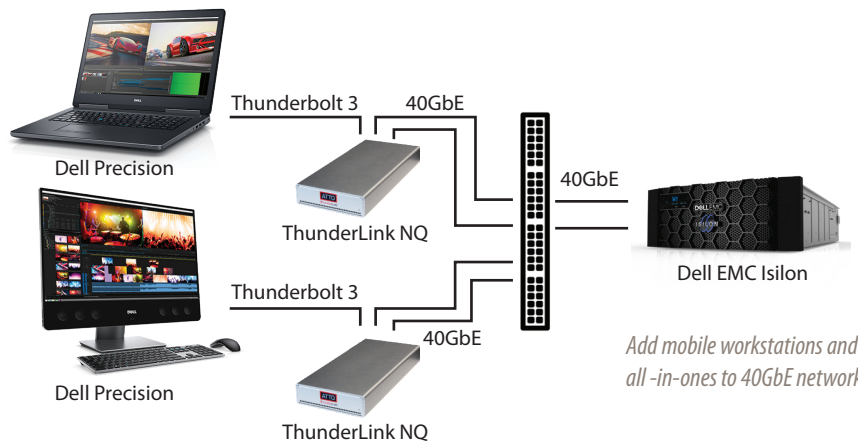

## Connecting Dell® Precision Mobile Workstations and All-in-Ones to a 40GbE or 10GbE Network Using Thunderbolt™

### EXPAND OPPORTUNITIES AND SELL INTO NEW MARKETS

Specialized, compute intensive applications used for media & entertainment, manufacturing and design, oil & gas, game development, imaging or healthcare require mobile workstations and all-in-ones outfitted with powerful graphics, processors and memory. High-performance, low-latency connectivity to storage is also a must have.

Thunderbolt™ 3 is a fantastic new technology that offers high throughput 40 GB/s to peripheral devices. More importantly, it brings versatility to traditionally limited mobile computers. It is changing how mobile users think about external storage by opening up many new use cases. ATTO ThunderLink® NQ and NS adapters enable mobile workstations and all-in-ones to connect to high performance 40Gb or 10Gb networks and network attached storage (NAS).

The amount of data utilized by mobile workstation and All-in-One applications is continually growing. Tapping into the power of the ATTO Thunderbolt 3 to 40GbE and 10GbE adapters will save orders of magnitude of time and money reading, writing and archiving data. ATTO ThunderLink adapters combine a new balance of mobility, simplicity, flexibility and performance.

*Add mobile workstations and all-in-ones to 40GbE network*
