

8K. Today.

Whatever your workflow, ATTO powers storage connectivity for 4K, 8K and beyond.

ATTO at NAB 2017 | Booth #SL9611

ATTO's booth highlights at NAB:

- Celerity™ 32Gb and 16Gb Gen 6 Fibre Channel host bus adapters (HBAs), featuring up to 2X higher throughput with lower latency to unleash the power of SSD flash storage and massive data applications, including 4K and 8K editing
- ThunderLink® Thunderbolt™ 3 to 40GbE and 10GbE devices to enable next-generation mobile workflows with enough bandwidth to support the transition from HD to 4K and 8K editing, whether in the field or in the edit bay
- XstreamCORE™ FC 7550-- a high-performance storage controller with hardware data acceleration that adds enterprise level 16Gb/s Fibre Channel SAN connectivity and diagnostics, management and monitoring to direct-attached SAS/SATA JBOD, JBOF or RAID storage
- FastFrame™ 40GbE and 10GbE network interface cards (NICs), designed to provide high-performance Ethernet network and storage connectivity while minimizing utilization of power and CPU cycles

In-booth demonstrations, featuring:

- **ATTO ThunderLink and Celerity devices — shared storage solution using Celerity Gen 6 and Thunderbolt 3**
 - Multipath Director™ for failover/failback
 - Storage connectivity for servers and workstations to enterprise class storage
 - For low latency real-time streaming applications
- **ThunderLink for Avid® NEXIS™—Copper and optical 10GbE connectivity**
 - Avid Certified Thunderbolt solution for 10Gb Ethernet
 - Demonstrates a low cost shared storage solution
 - For mobile workbooks and workstations running Avid Media Composer
- **XstreamCORE FC 7550 storage controller—build your own SAN using existing direct-attached SAS RAID storage**
 - Allows hosts to share a pool of block based storage
 - Hosts connect to the XstreamCORE FC 7550 using Fibre Channel and Thunderbolt 3
 - Streaming video to Dell® and Lenovo® mobile workstations via Adobe® Premiere

About ATTO

For nearly 30 years, ATTO Technology, Inc., has been a global leader across the IT and media and entertainment markets, specializing in storage and network connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works collaboratively with partners to deliver a wide range of end-to-end, customized solutions to better store, manage and deliver big data. With a focus toward markets that require higher performance and with a dedication to working as an extension of customer's design teams, ATTO manufactures host and RAID adapters, network adapters, storage controllers, Thunderbolt-enabled devices, switches and software. ATTO solutions provide a high level of connectivity to all storage interfaces, including Fibre Channel, SAS, SATA, iSCSI, 40/10GbE, NVMe and Thunderbolt. Distributing its cutting-edge products worldwide through Original Equipment Manufacturers (OEMs), systems integrators, value added resellers (VARs) and authorized resellers, ATTO is the Power Behind the Storage.
