**FOR IMMEDIATE RELEASE**

### **ATTO Technology's ExpressSAS™ Certified With Dot Hill**

*Certification delivers a fully tested and supported 12Gb SAS Solution*

**Amherst, NY (June 26, 2014)** – [ATTO Technology, Inc.](http://www.attotech.com), a global leader of storage, network connectivity and infrastructure solutions for data-intensive computing environments for more than 25 years, today announced that its [12Gb ExpressSAS™ HBAs](#) have been certified for use with Dot Hill's AssuredSAN® 4000 Series RAID Storage Arrays. The fully tested and supported 12Gb SAS option is ideal for Enterprise-class users in high performance markets looking for storage, data protection, and virtualized solutions.

"Dot Hill continues to push the limit of performance so naturally when it came time to target a connectivity partner, ATTO was the first choice," said Joe Swanson, vice president of marketing and business development, Dot Hill. "The Dot Hill AssuredSAN 4000 Series is complementary with the ATTO 12Gb ExpressSAS HBAs in a variety of vertical markets, making them an ideal data storage solutions for vertical market applications including high performance computing, seismic data analysis for oil and gas, telecommunications data capture, media streaming, video post-production editing, and broadcasting."

Representing the [latest advances in SAS technology](#), the 12Gb SAS/SATA HBA provides users with fast and reliable storage connectivity while enabling scalability for next generation platforms and infrastructures. Optimized for extremely low latency and high-bandwidth data transfers, ATTO's wide variety of port configurations, including the industry's only 16 internal port solution and RAID levels offer flexibility and reliability for the most demanding applications. In addition, ExpressSAS HBAs feature ATTO's Advanced Data Streaming (ADS™) technology. ADS latency management technology, which is built into every ATTO HBA and RAID controller, provides the fastest, most consistent time – to – data, delivering the best-in-industry aggregate bandwidth and predictable data transfers for high performance applications.

Dot Hill's [AssuredSAN 4000](#) Series SAN storage arrays offer up to 6400 MB/s sequential reads and 5300 MB/s sequential writes, as well as patented EcoStor™ battery-less cache backup which eliminates the need for battery maintenance, boosting availability. Designed with a powerful processor, these SAN storage systems solve many of today's most challenging storage problems, helping data intensive infrastructure to improve performance, increase availability, simplify operations and reduce costs. Dot Hill combines breakthrough software, flexible and reliable hardware and automated management to deliver best-in-class storage solutions.

The Dot Hill and ATTO certification portfolio also includes 8Gb and 16Gb Celerity™ Fibre Channel HBAs and Thunderlink™ Thunderbolt technology enabled Desklink products. Dot Hill

has been a member of ATTO's Access partner program since 2011. By working with ATTO, Dot Hill enables customers to optimize the performance in their storage infrastructure.

"With today's IT infrastructure radically changing, our continued collaboration with Dot Hill provides solutions for these very challenging levels of performance characteristics," said Wayne Arvidson, vice president of marketing and channels at ATTO Technology, Inc. "ATTO has been an innovator in delivering performance connectivity for key markets for over 25 years and with the Dot Hill AssuredSAN 4000 now brings the next level of solutions to address today and tomorrow's increasing bandwidth needs.

#### **About ATTO Technology, Inc.**

ATTO Technology, Inc. is a global leader of storage connectivity and infrastructure solutions for data-intensive computing environments. ATTO provides a wide range of solutions to help customers store, manage and deliver their data more efficiently. With a focus toward markets that require higher performance, ATTO manufactures host and RAID adapters, converged network adapters, bridges, switches, RAID storage controllers, and management software. ATTO solutions provide connectivity to all storage interfaces including Fibre Channel, SAS, SATA, iSCSI, FCoE, 10GbE and Thunderbolt. ATTO distributes its products worldwide directly to Original Equipment Manufacturers (OEMs), systems integrators, VARs and authorized distributors. Contact ATTO Technology, Inc. world headquarters at: 155 CrossPoint Parkway, Amherst, New York 14068; Phone: +1 716 691 1999; Fax: +1 716 691 9353; Website: [attotech.com](http://attotech.com).
