FOR IMMEDIATE RELEASE

ATTO Technology to Highlight Thunderbolt™ and PCIe 3.0 Connectivity Solutions at Intel Developer Forum 2011

Amherst, NY (September 13, 2011) – ATTO Technology, Inc. announced today it is showcasing its extensive line of storage and network connectivity products at IDF 2011 September 13 through September 15. Located in booth 818 of the Moscone West Convention Center, San Francisco, California, ATTO will highlight its FastStream™ SC SAS/SATA RAID Storage Controller with Thunderbolt™ Technology as well as its ExpressSAS 6Gb/s SAS/SATA Host Bus Adapters (HBAs) and RAID Adapters. In addition, ATTO's latest network connectivity solutions, the FastFrame™ 10Gb/s Ethernet Network Interface Card and the FastFrame™ 10Gb/s FCoE Converged Network Adapter will also be on display.

"We are excited to showcase our latest technology innovations at IDF 2011," said Wayne Arvidson, vice president of marketing at ATTO Technology, Inc. "This is a great opportunity to illustrate why ATTO is the leader in powering all facets of high-performance workflows."

ATTO's IDF Highlights

- FastStream™ SC SAS/SATA RAID Storage Controller featuring Thunderbolt™-based technology – the industry's premier embedded storage controller designed for high-performance environments. Thunderbolt technology gives prosumer and professional users the ability to achieve performance levels up to 1000 MB/s of bandwidth.

-more-

- PCIe 3.0 SAS/SATA HBAs – ATTO's latest SAS/SATA technology provides the highest available performance in the market. Collaborating with PLX Technology, Inc.'s Gen3 devices, this solution will be demonstrated in their booth, number 814.

- 6Gb/s ExpressSAS SAS/SATA HBAs and RAID Adapters are listed on the Intel® online Server Configurator Tool.

"Our Thunderbolt™-powered FastStream RAID storage controller and first-to-market PCIe 3.0 SAS/SATA HBAs are outstanding examples of why ATTO is the leader in high performance connectivity solutions. We encourage everyone to visit our booth and meet with our industry experts to learn more about our latest technology advancements."

About ATTO Technology, Inc.:

ATTO Technology, Inc., a global leader of storage and network connectivity and infrastructure solutions for data-intensive computing environments for over 20 years, provides a wide range of solutions to help customers store, manage and deliver their data more efficiently. With a focus toward markets that require higher performance, ATTO manufactures host and RAID adapters, converged network adapters, bridges, switches, RAID storage controllers, and management software. ATTO solutions provide connectivity to all storage interfaces including SCSI, SATA, iSCSI, SAS, Fibre Channel, FCoE and 10GbE. ATTO distributes its products worldwide directly to Original Equipment Manufacturers, systems integrators, VARs and authorized distributors.
