FOR IMMEDIATE RELEASE

ATTO Technology to Highlight Thunderbolt™ 3 Connectivity Solution at IDF
Poised to be industry leader for new Thunderbolt connectivity, offering devices with twice the performance of Thunderbolt 2

Amherst, NY (August 11, 2016) – The new Thunderbolt™ 3 is definitely a game changer and attendees at this year's Intel™ Developer Forum, August 16-18 in San Francisco, will be among the first to see why.

ATTO Technology, Inc., a global leader of storage, network connectivity and infrastructure solutions for data-intensive computing environments and a member of Intel's Thunderbolt Developer Community, will be showcasing the new ThunderLink™ Thunderbolt™ 3 device, bringing 40GbE connectivity to new Thunderbolt 3 enabled platforms.

The new ThunderLink 3401 and 3402 offer users the ability to transfer data on the network and to storage at unprecedented speeds. Thunderbolt 3 offers performance at eight-times the performance of USB 3.0. Coupled with 40GbE network connectivity, creative professionals can easily work with 4K uncompressed footage.

Among the features of the new ThunderLink devices:
- Single- or dual-port connectivity, offering more flexibility to switches and storage
- Thunderbolt speeds of 40Gb/s, giving users read and write speeds capable of handling demanding bandwidth-intensive applications for 4K video and high-resolution graphics
- A USB-C style connector to transport Thunderbolt 3 while offering ubiquitous connectivity

ABOUT ATTO

For nearly 30 years, ATTO Technology, Inc., has been a global leader across the IT and media and entertainment markets, specializing in storage and network connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works collaboratively with partners to deliver a wide range of end-to-end, customized solutions to better store, manage and deliver big data. With a focus toward markets that require higher performance and with a dedication to working as an extension of customer's design teams, ATTO manufacturers host and RAID adapters, network adapters, storage controllers, Thunderbolt-enabled devices, switches and software. ATTO solutions provide a high level of connectivity to all storage interfaces, including Fibre Channel, SAS, SATA, iSCSI, 40/10GbE, FCoE and Thunderbolt. Distributing its cutting-edge products worldwide through Original Equipment Manufacturers (OEMs), systems integrators, value added resellers (VARs) and authorized resellers, ATTO is the Power Behind the Storage.
