FOR IMMEDIATE RELEASE

ATTO Technology to Highlight Innovations at Intel® Solutions Summit

*Sharing Broadest Portfolio of Storage and Network Solutions Supporting
Ethernet, Fibre Channel, SAS, and Thunderbolt Protocols*

Amherst, NY (March 12, 2013) – ATTO Technology, Inc. announced today it is sponsoring the Intel® Solutions Summits in Los Angeles, California March 19-20 at LA Live, and in Dublin, Ireland, April 11-12 at the Conference Centre Dublin. These invitation-only events allow channel program members to receive updates on ATTO's unique technology innovations, industry trends and Intel products. Both events give attendees access to ATTO experts, as well as Intel executives, to explore the latest next-generation solutions available meeting the demands of the fastest growing vertical markets.

“ATTO is excited to be recognized by the Intel channel team for our leading-edge technology utilized by the system integrator community,” said Wayne Arvidson, vice president of marketing at ATTO Technology, Inc. “Building on Intel's innovative platforms, we offer system builders differentiated solutions that solve complex end user problems. ISS gives us an opportunity to share our 25 year heritage of innovation and why leading integrators build their systems around ATTO's capabilities.”

ISS allows top systems integrators and value-added resellers (VARs) an opportunity to learn more about ATTO's Intel-Certified [ExpressSAS™ Host Bus Adapters \(HBAs\) and RAID Adapters](#), as well as its full portfolio of connectivity products. Products at the show include [Celerity™ Fibre Channel HBAs](#), [FibreConnect™ Fibre Channel Switches](#), [FastFrame™ 10Gb/s Ethernet Network Interface Cards](#), [FastStream™ RAID Storage Controllers](#) and [FibreBridge™ Fibre Channel Bridges](#).

–more–

In addition, ATTO will also feature its Thunderbolt™ technology-enabled Desklink™ devices. Comprised of [ThunderLink™](#) and [ThunderStream™](#), these devices allow small form factor platforms such as all-in-ones, Ultrabooks and laptops to connect to high-performance infrastructures.

“We look forward to showcasing our full suite of storage and network connectivity solutions at ISS, and how we support the channel with our Accelerate™ and Access™ partner programs,” added Arvidson. “We encourage attendees to learn more about ATTO’s 25 years of market leadership in solving the most difficult challenges found in data-intensive environments.”

For more information about Access, visit: <http://www.attotech.com/alliances/access/>

About ATTO Technology, Inc.:

Celebrating 25 years of industry leadership, ATTO Technology, Inc. is a global leader of storage and network connectivity and infrastructure solutions for data-intensive computing environments. ATTO provides a wide range of end-to-end solutions to help customers better store, manage and deliver their data. With a focus toward markets that require higher performance, ATTO manufactures host bus adapters, RAID adapters, network adapters, RAID storage controllers, Thunderbolt™-enabled Desklink™ devices, bridges, switches and software. ATTO solutions are based on providing a high level of connectivity to all storage interfaces including Fibre Channel, SAS, SATA, iSCSI, 10GbE, FCoE and Thunderbolt. ATTO distributes its products worldwide through Original Equipment Manufacturers (OEMs), systems integrators, value-added resellers, and authorized distributors.
