FOR IMMEDIATE RELEASE

ATTO Technology to introduce new VSAN solution with AIC, Micron at VMworld

Preconfigured VMware® VSAN ready nodes built on AIC's all-flash array hardware feature Micron's SSDs and ATTO's FastFrame™ NICs and ExpressSAS™ HBAs

Amherst, NY (August 25, 2016) – [ATTO Technology, Inc.](http://www.attotech.com), a global leader of storage, network connectivity and infrastructure solutions for data-intensive computing environments for nearly 30 years, is proud to announce it was selected for inclusion in a top-of-the-line solution for building a virtual storage area network (SAN) incorporating devices from AIC and Micron.

AIC chose ATTO's [ExpressSAS®](#) 12Gb host bus adapters (HBAs) and [FastFrame™](#) 40GbE network interface cards (NICs) and Micron's M510DC 600Gb user capacity cache SSD to develop a VMware® Virtual SAN ready node that brings increases the cost-to-performance ratio of storage clusters while optimizing virtualized environments.

The solution will be demonstrated in AIC's booth (#640) at [VMworld](#), August 28-31 in Las Vegas, to showcase the benefit and performance of building an all-flash virtual SAN from trusted industry leaders for ease of installation and adoption. The fully tested and certified solution reduces operational expenditures by simplifying storage and network setup for VSANs while offering flexible all-flash or hybrid flash-hard disk drive storage configurations. VSANs allow users to pool storage for better management of resources and, thanks to integrated ATTO software like Advanced Data Streaming (ADS™) and vConfigTool™, low latency and easy manageability is guaranteed.

Be sure to stop by Booth #640 to see the AIC, Micron and ATTO solution in action, then come by Booth #846 to see ATTO and learn about the new XstreamCORE™ storage controller designed to accelerate data transfers and speed the migration of virtual machines. ATTO also will be featuring new Celerity™ 32Gb Gen 6 Fibre Channel HBAs at VMworld.

ABOUT ATTO

For nearly 30 years, ATTO Technology, Inc., has been a global leader across the IT and media and entertainment markets, specializing in storage and network connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works collaboratively with partners to deliver a wide range of end-to-end, customized solutions to better store, manage and deliver big data. With a focus toward markets that require higher performance and with a dedication to working as an extension of customer's design teams, ATTO manufacturers host and RAID adapters, network adapters, storage controllers, Thunderbolt-enabled devices, switches and software. ATTO solutions provide a high level of connectivity to all storage interfaces, including Fibre Channel, SAS, SATA, iSCSI, 40/10GbE, FCoE and Thunderbolt. Distributing its cutting-edge products worldwide through Original Equipment Manufacturers (OEMs), systems integrators, value added resellers (VARs) and authorized resellers, ATTO is the Power Behind the Storage.
