ATTO Technology Announces VMware Technology Alliance Partner Program Elite Membership

Amherst, NY (June 9, 2016) – [ATTO Technology, Inc.](#), a global leader of storage, network connectivity and infrastructure solutions for data-intensive computing environments for nearly 30 years, today announced it has joined the [VMware Technology Alliance Partner \(TAP\) program](#) as an Elite level partner. Elite members of the TAP program collaborate with VMware to integrate and validate their products with VMware solutions to drive transformative business outcomes for customers.

“We welcome ATTO Technology as an Elite member of the VMware TAP program,” said Howard Hall, senior director, Global Technology Partnering Organization, VMware. “VMware and our Elite partners are driving the convergence of cloud infrastructure and virtualization for our customers, enabling greater efficiencies and reliability. Through the TAP program, companies like ATTO can extend the benefits of VMware cloud infrastructure to fuel transformation within customer environments.”

“ATTO’s relationship with VMware will allow us to provide resources and products that empower IT administrators running business-critical applications in virtualized environments,” said Tim Klein, CEO, ATTO Technology. “We’re excited to offer customers our end-to-end solutions to better store, manage and deliver data including management, monitoring and diagnostic tools developed in conjunction with VMware.”

The [VMware Solution Exchange \(VSX\)](#) is an online virtualization and cloud infrastructure marketplace that provides customers with a single point of entry to discover, evaluate and rate business solutions.

ATTO product information, collateral and other assets are listed within the online VMware Solution Exchange at <https://solutionexchange.vmware.com/store/companies/atto-technology-inc>.

With thousands of members worldwide, the VMware TAP program includes best-of-breed technology partners with the shared commitment to bring the best expertise and business solutions for each unique customer environment.
