ATTO Expands 12Gb ExpressSAS™ HBA Line

Representing the latest advancement in SAS Technology with internal and external connectivity

Amherst, New York (January 28, 2015) – ATTO Technology, Inc., a global leader of storage, network connectivity and infrastructure solutions for data-intensive computing environments for more than 25 years, today announced it has further expanded its line of 12Gb ExpressSAS™ Host Bus Adapters (HBAs) with three new models.

Each of these new products provide both internal and external ports for connecting up to 2048 devices all while consuming only a single PCIe slot. Perfect for high-performance computing environments, these low profile adapters offer more flexibility for connecting storage – JBOD, RAID storage, tape, SSD and HDD – all on the same adapter.

"For over 25 years, ATTO Technology has demonstrated the leadership that provides our customers breakthroughs in storage and network connectivity and performance," said Wayne Arvidson, vice president of marketing and channels at ATTO Technology, Inc. "This latest addition to the ExpressSAS family is an optimized solution that supports today's radically shifting IT environments including big data, virtualization, and media centric applications."

ATTO's ExpressSAS HBAs additional key features and benefits include:

- **Lowest Power Consumption:** ExpressSAS 12Gb HBAs use up to 40% less power than others to reduce energy costs and are fully compliant with PCIe 25W power specifications. Expands system performance resources to extend processing capabilities, which is especially important in virtualized environments.
- **Power Center Pro Raid:** ATTO integrates RAID 0,1, 1e and 10 into select model 12Gb HBAs to provide easy to continue, easy to manage RAID capabilities. Coupled with Advanced Data Streaming (ADS™) for managed data acceleration, consistently high bandwidth and data protection.
- **True 16-Port Connectivity for Large Infrastructures:** For the most complex storage ecosystems, ATTO's 16-port 12Gb HBAs provide internal and external connectivity to provide the lowest latency, and the highest – density connections.
- **Interoperability:** Hundreds of product certifications with dozens of industry leading partners, for hardware and software applications including, disk storage devices, removable tape, optical storage, hard disk drives, and solid state drives.

To purchase ATTO products through leading Resellers, System Integrators, and the ATTO Web Store. Learn more: http://www.attotech.com/howtobuy/

About ATTO Technology, Inc.
ATTO Technology, Inc. is a global leader of storage connectivity and infrastructure solutions for data-intensive computing environments. ATTO provides a wide range of solutions to help customers store, manage and deliver their data more efficiently. With a focus toward markets that require higher performance, ATTO manufactures host and RAID adapters, converged network adapters, bridges, switches, RAID storage controllers, and management software. ATTO solutions provide connectivity to all storage interfaces including Fibre Channel, SAS, SATA, iSCSI, FCoE, 10GbE and Thunderbolt. ATTO distributes its products worldwide directly to Original Equipment Manufacturers (OEMs), systems integrators, VARs and authorized distributors. Contact ATTO Technology, Inc. world headquarters at: 155 CrossPoint Parkway, Amherst, New York 14068; Phone: +1 716 691 1999; Fax: +1 716 691 9353; Website: attotech.com.
