FOR IMMEDIATE RELEASE

ATTO Technology announces support for Windows Server 2016
Powering the shift to virtualized data centers with the latest Microsoft enterprise offering

Amherst, NY (October 19, 2016) – ATTO Technology, Inc., a global leader of storage, network connectivity and infrastructure solutions for data-intensive computing environments for nearly 30 years, today announced support for the newly released Windows Server 2016 operating system. This latest enterprise offering from Microsoft delivers powerful innovation in three areas: enhanced network security; expanded support for the software-defined data center; and new options to accelerate cloud applications.

Accelerating storage performance and lowering latency to maximize the use of system resources anchor ATTO's strategy to deliver industry-leading products for the software-defined and cloud computing markets.

Included in ATTO's portfolio of Windows Server 2016 supported solutions are:

- Celerity™ 32Gb, 16Gb and 8Gb Fibre Channel host bus adapters (HBAs) with MultiPath Director™
- ExpressSAS® 12Gb and 6Gb SAS/SATA HBAs and 6Gb RAID adapters
- Thunderbolt™ enabled ThunderLink® and ThunderStream® devices for Thunderbolt 2 and 3 platforms
- FastFrame™ 40Gb and 10Gb network interface cards (NICs)

"For many years, ATTO has led the market in storage connectivity for solutions that leverage Microsoft innovation in the enterprise computing market space," said Tom Kolniak, director of products at ATTO. "With the release of Server 2016, we expect that our customers will be able to take performance to a new level and provide unique solutions in the cloud."

ATTO products are available for purchase through leading resellers, system integrators, OEMS and the ATTO webstore. Learn more at www.atto.com/howtobuy.

ABOUT ATTO

For nearly 30 years, ATTO Technology, Inc., has been a global leader across the IT and media and entertainment markets, specializing in storage and network connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works collaboratively with partners to deliver a wide range of end-to-end, customized solutions to better store, manage and deliver big data. With a focus toward markets that require higher performance and with a dedication to working as an extension of customer's design teams, ATTO manufacturers host and RAID adapters, network adapters, storage controllers, Thunderbolt-enabled devices, switches and software. ATTO solutions provide a high level of connectivity to all storage interfaces, including Fibre Channel, SAS, SATA, iSCSI, 40/10GbE and Thunderbolt. Distributing its cutting-edge products worldwide through Original Equipment Manufacturers (OEMs), systems integrators, value added resellers (VARs) and authorized resellers, ATTO is the Power Behind the Storage.
