FOR IMMEDIATE RELEASE

ATTO Technology Announces Support for macOS™ Sierra

Complete hardware and software portfolio supports latest Mac OS® release

Amherst, NY (September 20, 2016) – [ATTO Technology, Inc.](http://attotech.com), a global leader of storage, network connectivity and infrastructure solutions for data-intensive computing environments for nearly 30 years, today reaffirmed its commitment to Apple® technology innovations by announcing driver support for macOS Sierra, released today. The newest Mac OS® operating system improves user's online experience, allows them to work more seamlessly between devices, and also help free up valuable storage space.

Today's announcement makes ATTO the only high-performance connectivity provider with a full range of storage and network connectivity solutions to [support](#) Apple's newest Mac operating system. Customers can download the new drivers immediately from the ATTO website. With nearly 30 years of experience powering high-performance workflows, ATTO's network and storage connectivity products support Apple markets, including Pro Apps, education and business. The new OS meets the increasingly demanding needs for those industries.

Apple has long been a platform of choice for creative professionals, and applications such as HD and 4K digital production and video editing have expanded file sizes and project complexity, pushing users to grow their storage footprint exponentially. ATTO has continued to innovate and provide the most reliable products powering these high-performance infrastructures, including the most demanding applications in media and entertainment, government and education, scientific and large data-block environments.

"As Apple evolves to integrate portable and cloud computing, ATTO continues to provide the storage and network connectivity tools to enable this shift," said Tom Kolniak, director of products at ATTO. "ATTO's commitment to the Apple ecosystem will allow users to continue to access high-performance storage and networks in their application workflow."

Products included in ATTO's portfolio of macOS Sierra supported solutions:

- Celerity™ 32Gb/s (Gen 6), 16Gb/s (Gen 5 and Gen 6) and 8Gb (Gen 5) Fibre Channel host bus adapters (HBAs) with MultiPath Director™
- ExpressSAS® 6Gb SAS/SATA HBAs and 6Gb RAID adapters
- Thunderbolt™ enabled ThunderLink® and ThunderStream® devices
- FastFrame™ 10GbE and 40GbE Network Interface Cards (NICs)
- Software including ATTO ConfigTool™, CLI Tools, Xtend SAN iSCSI Initiator, Express NAV™ and QuickNAV

ATTO products are available for purchase through leading resellers, system integrators, OEMs and the ATTO webstore. Learn more at www.attotech.com/howtobuy/.

ABOUT ATTO

For nearly 30 years, ATTO Technology, Inc., has been a global leader across the IT and media and entertainment markets, specializing in storage and network connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works collaboratively with partners to deliver a wide range of end-to-end, customized solutions to better store, manage and deliver big data. With a focus toward markets that require higher performance and with a dedication to working as an extension of customer's design teams, ATTO manufactures host and RAID adapters, network adapters, storage controllers, Thunderbolt-enabled devices, switches and software. ATTO solutions provide a high level of connectivity to all storage interfaces, including Fibre Channel, SAS, SATA, iSCSI, 40/10GbE, FCoE and Thunderbolt. Distributing its cutting-edge products worldwide through Original Equipment Manufacturers (OEMs), systems integrators, value added resellers (VARs) and authorized resellers, ATTO is the Power Behind the Storage.
