## 7500N SHIELDED ETHERNET CABLE INFORMATION

This product package includes two 3 meter shielded Ethernet cables. These cables must be used to connect the FibreBridge™ 7500N Ethernet management Port 1 or Port 2 (as shown below) to other Ethernet devices to provide proper EMI (Electro-Magnetic Interference) noise reduction and protection.

**Should you need additional or longer cables please purchase the following (or equivalent) cables: VPI P/N CAT7-10-GRAY**
