

## MultiPath Director Release v1.0 – Windows®

### 1. General Release Information

---

These product release notes define the new features, changes, known issues and release details that apply to the MultiPath Director™ v1.0 for Celerity 8Gb Fibre Channel adapter product that was released on 6/28/2010. This information pertains to the Microsoft Windows OS including Windows 7, XP and Vista, for x86 and x64 platforms.

### 2. Changes

---

- **Version 1.0 (Released 6/28/2010) – Microsoft Certified for Windows 7, Vista, XP**
  - **Notes:** Requires Celerity 8Gb Fibre Channel Windows StorPort/MiniPort driver v1.22 (released 6/28/10). It is recommended that the latest flash bundle available on ATTO website be utilized with this driver release.
  - **New Features**
    - Initial release of Celerity MultiPath Director for Windows® 7, XP and Vista

### 3. Known Issues/Advisements

---

- Paths may take several minutes to become available for IO. Windows device discovery can take several seconds to build the device stacks in the system which may cause delays in the paths availability to handle I/O. Increasing the number of devices and LUNs or the IO/CPU workload can have additional negative impact.
- Only disk devices are multipathed.
- In order for MultiPath Director to detect the arrival or removal of a LUN without affecting other LUNs on the device, an I/O must be performed to another disk LUN on the device.

### 4. Affected Products

---

| Product Name     | SKU           |
|------------------|---------------|
| Celerity FC 81EN | CTFC-81EN-000 |
| Celerity FC 82EN | CTFC-82EN-000 |
| Celerity FC 84EN | CTFC-84EN-000 |

### 5. Contacting ATTO Support

---
