

ExpressSAS 6Gb RAID Flash Bundle v100520

1. General Release Information

These product release notes define the new features, changes, known issues and release details that apply to the ExpressSAS 6Gb RAID adapter flash bundle package, version 100520, which was released on 05/21/10. This information pertains to the flash bundles and BIOS utility associated with the ExpressSAS 6Gb RAID product.

2. Changes

- **Version 100520 (Released 05/21/10)**
 - **New Features, Enhancements and Changes**
 - Initial release for the R644, R680 and R608.

3. Known Issues/Advisements

- If a cable is disconnected or a drive is pulled during data transfer, commands may be lost and the interface may not recover, when connected to SATA drives through an expander.
- A RAID group may go offline and several drives may be marked as faulted, when writing to Seagate Barracuda ES.2 drives in certain enclosures.
- The adapter can be flashed with only one boot driver at a time. The options are BIOS, EFI 32 bit or EFI 64 bit.
