

Fibre Channel Cable Family

ATTO Delivers Quality - ATTO Delivers your Data

ATTO's family of cable products provides high performing storage connectivity for media and entertainment and general IT workflows.

Technical Features - Fibre Channel Connectivity Solutions

- Backward compatible with 1 Gb and 2 Gb Fibre Channel Devices
- Rigorously tested with a wide array of peripheral storage hardware
- Ensures the cleanest signal for smooth and reliable data transfers
- High-quality cables reduce downtime and trouble shooting time
- Fully compliant with all Fibre Channel defined spec
- Optimized specifically for use with all ATTO Celerity Host Bus Adapters, Fibre Bridges and FastStream Storage Controllers
- Easy release latching systems allow secure connectivity and stacking and smooth disconnects
- 90 day standard product warranty

You're working in a high performance environment with state of the art computer components, you need cables that deliver your data fast and reliably. **ATTO Delivers!**

Protective Jumper Boots
Adds an extra layer of cushion to provide even more cable strain relief

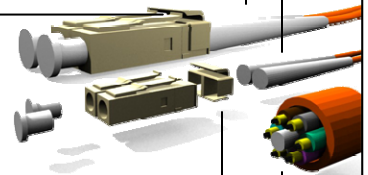

Crimp Sleeves and HS Tubing
Adds extra durability while providing flexibility and relief on cable strain

High-Quality Connectors
Pull-tested to ensure secure connectivity

Duplex Yoke (Trigger)
Eliminates improper connections and snagging.

Upjacket Central Strength Element
Reinforces shield continuity

Aramid Strength Elements
Provides strength for the fibre elements
